**The things that most helped my learning in this course were:**

Students
Internet
Internet sources – there is no textbook
Reading academic news articles regarding current events, blockchain technology and its different applications
class discussions and readings
The resources for legitimate source material
the overall students and their interest in the subject matter

**The things that most hindered my learning in this course were:**

Students
No true guidelines for each class, very scrambled
Very unstructured. Understandable as it is an inaugural course
The class was kind of disorganized, and the professors provided little feedback on assignments that were turned in
lack of class projects
laziness
Professors not showing up or not adhering to the syllabi
no assignments

## I have the following suggestions for improving this course:

Students
Better organization
More structure!
Have a strict schedule for assignments and follow it religiously so that the students have a general understanding of what grade they should expect
needs to be better organized and have group projects
n/a
different professors, use canvas, stick to syllabi

## What do you like about the instructor?

Students
Excited about technology
Willing to tech such a forward subject
N/A
they were open and allowed discussions
Highly knowledgeable on the subject matter
Very passionate and seems to know a lot.
